

Aluminium Aerosol cans

These sizes represent our standards. Alltub is able to meet all your requirements concerning diameters, lengths, shoulders and pressure resistance. Our vast experience, our qualified know-how and specialization in terms of innovation allow us to propose different artwork solutions suitable to shape your ideas. Alltub offers a large choice of finishes: from white or transparent base coating to more sophisticated effects (mat, gloss, pearl, glitter, glazed). Alternative sizes can be produced according to specific requirement.

Aluminium Aerosol cans

ALLTUB has created a new generation of aluminium cans called TWIN and NEW SMART to respond the market requirements. Our Shaped Cans, available as standard, are proposed with the aim to personalize the customer's own brands. In order to promote aluminium aerosol cans we are now able to offer SWITCH cans to fit all kind of spray caps available on the market. Alternative shapes combined with different sizes can be produced according to specific requirements.

TYPE TS

Twin Shape

TYPE NS

New Smart

TYPE SW

Switch
